

CALLING YOUR IRIDIUM HANDSET FROM A LANDLINE

Currently calling an Iridium handset may not be possible or may be expensive. The situation varies from Country to Country depending on the carrier being used.

To overcome this short term problem SELEX Communications have access to a call router allowing a call to be placed from any landline/mobile telephone/satellite telephone to your Iridium handset. Please note this service is charged on a receiving party pays basis (*just like roaming on a GSM phone*). In view of the nature of this service and the charges incurred by the handset owner, each handset must be registered in the system and the following details must be completed signifying your acceptance :

Name _____ Tel No: _____

Address _____

Iridium Telephone number 8816 *Please enter your last 8 Digits*

--	--	--	--	--	--	--	--

Please open the Iridium router to the number as detailed above. I understand that all calls to the Iridium handset made via the router will be charged to my account in accordance with my current contract.

Signed _____ Print Name _____

To call your Iridium Handset Dial + 1 480 768 2500. Wait for the prompt and enter the Iridium number, wait for a short time and expect at least 8 rings prior to connection.

Notes

- 1) You will not be charged for the satellite connection until the Iridium phone is answered. However, the party placing the call will be charged by the landline provider as soon as connection to the router is made.
- 2) The router service is charged at \$2.00 per minute. This price may be changed from time to time however we advise you of any changes 14 days in advance.
- 3) We reserve the right to change the router number and will advise you accordingly.
- 4) You are responsible for the charges incurred by using this service and you are responsible for controlling who you advise the access number to.
- 5) All charges will be added to our invoices for calls made from the handset and will be due in accordance with the Agreement between you and SELEX Communications Ltd
